

Constituent Survey

The Easiest Way to Hear What Your Constituents Are Thinking

Surveys are statistically accurate. They are broad-based. They capture key-press answers to questions. They also allow you to hear how people sound in their own voices by recording their responses to open-ended questions. Spoken Hub survey calls allow you to go directly to your constituents and hear what's really going on.

Use a survey call to poll constituents about pending legislation, important issues, or to find out more about their interests so you can communicate with them more precisely next time.

How Surveys Work

- Spoken Hub works with your list of constituents.
- We can survey your entire constituent base within a day or two.
- We help write and test your questionnaire to get your constituents to respond.
- Our auto calls eliminate human error. Each survey is delivered exactly the same way.
- The surveys provide valuable data and statistics to inform your strategy.
